

## (4/11)Daily Scrum or Standup Meeting

Team name: 10

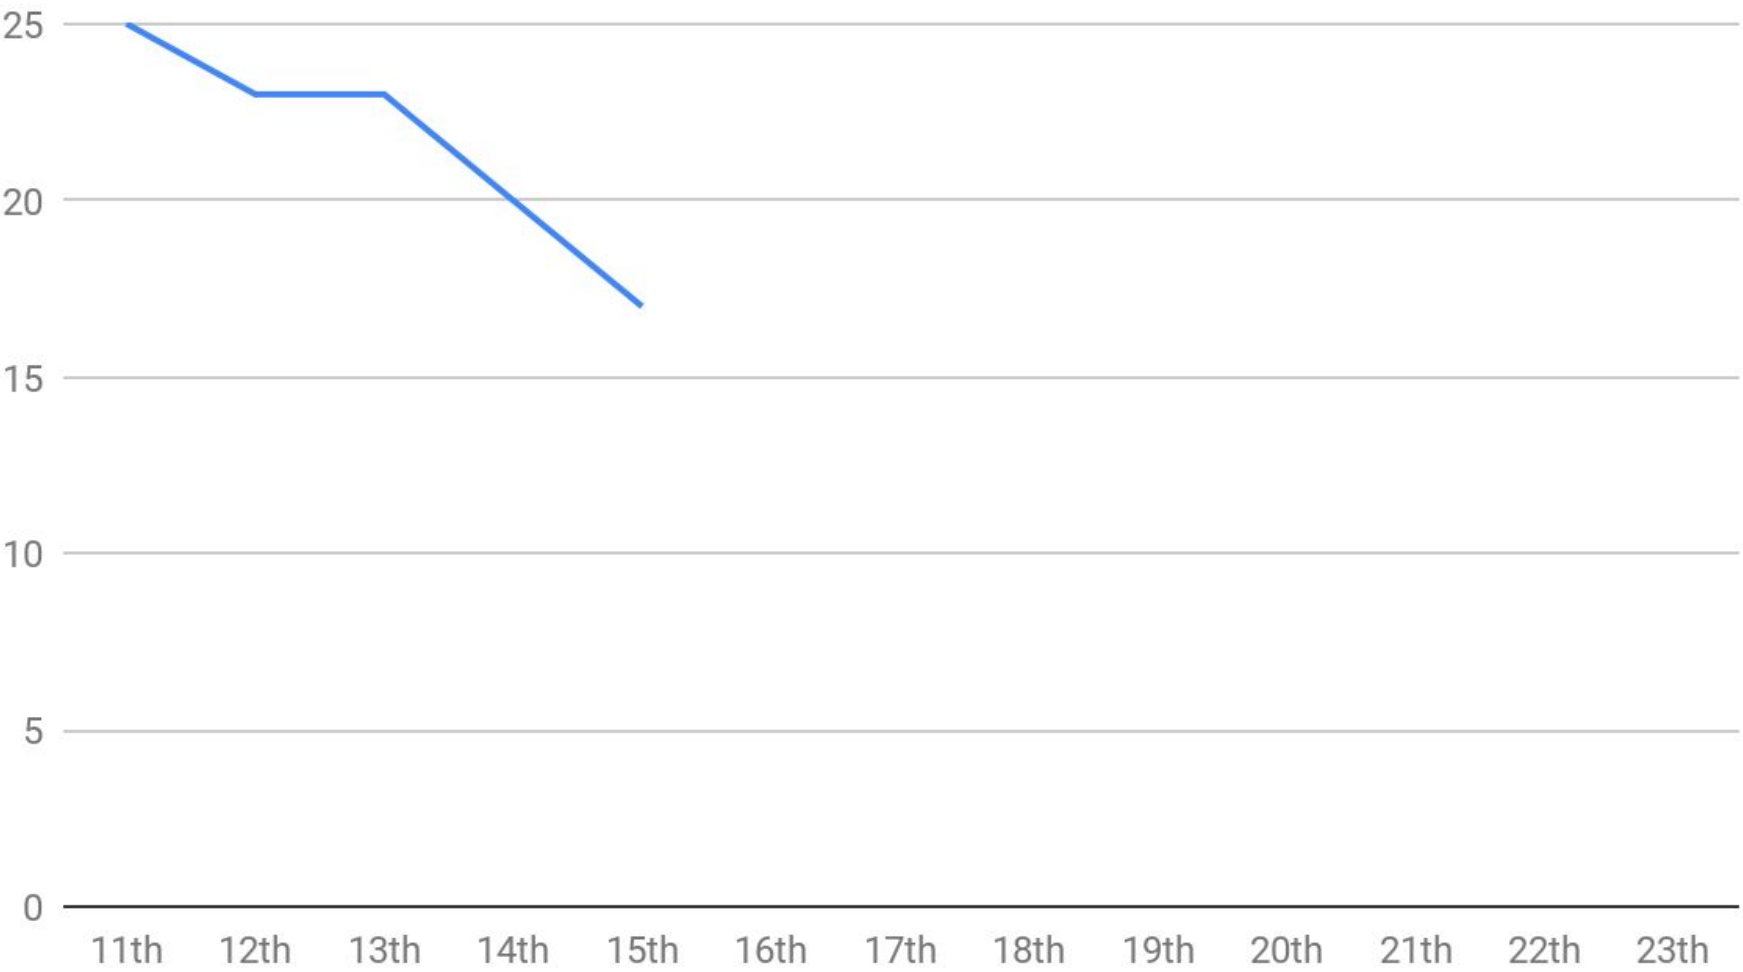

Scrum Master: Nick Jugganaikloo

Date: 4/16

Team Member	What did you do since the last scrum?	What do you plan to do before the next scrum?	What obstacles do you have?
George Done	researched django unit testing	implement unit tests	figuring out what needs to be tested
Zach Hawkes	Finished code for generating borrow request and fixed up some css	Finish the return feature and start some bug hunting to fix any glaring bugs.	Time. Not enough Time. or food.
Tanner	Removed the fake Search bar from the header. Removed Alerts from header. Changed 'Account Settings' to 'Settings'. Made 'Rent-A-Movie' a link on movieDetails page.	Make Lending/Borrowing show the movies the logged in user is actually lending/borrowing. CSS	CSS is stupid.
Nick Jugganaikloo	Updated movie possession when borrow happens. Show success message for borrow requests.	Deploying Project to Cloud	Might have to change little thing to make the project compatible with the cloud
